

## CONTENTS OF VOLUME 24

### Number 1

Interface stresses in fiber-reinforced materials with regular fiber arrangements W. H. MULLER (USA) & S. SCHMAUDER (Germany)	1
Exact solutions of buckling for simply supported thick laminates F. JIARANG & Y. JIANQIAO (China)	23
An interlaminar stress mixed finite element method for the analysis of thick laminated composite plates C.-P. WU & H.-C. KUO (Taiwan)	29
Computation of flexural and torsional homogeneous properties and stresses in composite beams with orthotropic phases G. PUSPITA, J. J. BARRAU & D. GAY (France)	43
Some strength studies on FRP laminates V. K. GANESH & N. K. NAIK (India)	51
Optimum design studies on FRP beams with holes N. K. NAIK & V. K. GANESH (India)	59
Three-dimensional elasticity solution for static response of orthotropic doubly curved shallow shells on rectangular planform A. BHIMARADDI (USA)	67
Observations on the behavior of orthotropic plates S. P. JOSHI (USA)	79
Announcement	82

### Number 2

Four-point bending tests on off-axis composites M. GREDIAC (France)	89
The effect of varying the support conditions on the buckling of laminated composite plates G. B. CHAI & P. W. KHONG (Singapore)	99
Stress concentration around holes in composite laminates with variable fiber spacing L.-C. SHIAU & G. C. LEE (Taiwan)	107
Composites with multiple cutouts T. J. WALSH & O. O. OCHOA (USA)	117
Bending analysis of laminated plates using a refined shear deformation theory J.-F. HE, M. CHOU & X. ZHANG (China)	125
Euler buckling of pultruded composite columns E. J. BARBERO & I. G. RAFTOYIANNIS (USA)	139
Large amplitude vibration of antisymmetric imperfect cross-ply laminated plates J.-Y. YANG & L.-W. CHEN (Taiwan)	149
On stress concentration in the bending of sandwich beams with transversely flexible core Y. FROSTIG (Israel)	161

## Number 3

**Special Issue: Advances in Polymer Composites**

Guest editorial . . . . .	171
O. SEYCEK (Austria)	
From concepts of models to a theory . . . . .	173
K. MOSER (Austria)	
Finite element analysis of vibration and damping of laminated composites . . . . .	181
R. RIKARDS (Latvia)	
Construction and analysis of high performance composites . . . . .	193
B. KNAUER (Germany)	
Temperature resistant glass fibre-epoxy composites . . . . .	205
W. EICHBERGER (Austria)	
From micro- to macroproperties of polymer based composite systems by integration of the characteristics of the interphase regions . . . . .	213
A. H. CARDON (Belgium)	
Recent developments of thermosetting polymers for advanced composites . . . . .	219
H. D. STENZENBERGER (Germany)	
Creep and creep damage of glass fibre reinforced polypropylene . . . . .	233
J. HUGO, M. SOVA & J. ČIŽINSKÝ (Czech Republic)	
Reinforcement of polymers by topological superstructures . . . . .	245
M. RÄTZSCH (Germany)	
Increasing the limit of usability of CFRP tubes by built-in stresses . . . . .	251
R. G. CUNTZE & R. HEIBEL (Germany)	
Evaluation of composites under dynamic load . . . . .	265
F. ORTH, L. HOFFMANN, H. ZILCH-BREMER & G. W. EHRENSTEIN (Germany)	

## Number 4

Optimal design of a composite structure . . . . .	273
D. L. GRAESSER, Z. B. ZABINSKY, M. E. TUTTLE & G. I. KIM (USA)	
Strength of carbon/epoxy laminates with countersunk hole . . . . .	283
C.-G. ARONSON (Sweden)	
Stiffness characteristics of twisted cords for cord-rubber composites . . . . .	291
R. M. V. PIDAPARTI (USA)	
Interlaminar stresses around hole boundaries of composite laminates subjected to in-plane loading . . . . .	299
W. J. YEN & C. HWU (Taiwan)	
Vibration of clamped moderately thick general cross-ply plates using a generalized Navier approach . . . . .	311
R. A. CHAUDHURI & H. R. H. KABIR (USA)	
A simple material model for unidirectionally aligned fibre reinforced composites . . . . .	323
S. F. M. ABD-EL-NABY, L. HOLLAWAY & M. GUNN (UK)	
Analytical formulae for calculating stresses in unidirectional/cross-ply unbalanced laminates . . . . .	333
C. ZHU, M. HELLER & Y. C. LAM (Australia)	
Axisymmetric deformation of varying thickness composite cylindrical shell with various end conditions . . . . .	345
B. S. K. SUNDARASIVARAO & N. GANESAN (India)
